

The Township of

Rideau Lakes

3 Ton Truck - ADDENDUM #1

A1-PW2026-10

A1-PW2026-10

This addendum is being released to clarify questions received on RFP 2026-10 for a 3-ton truck, and to correct an error on page 2 of the RFP.

Revisions are to the original RFP document with closing date of April 8, 2026.

In the "Inquiries During RFP Period" on page 2 of the original RFP document, the email address for the Manager of Facilities and Parks was incorrect. The correct email address is parksmanager@rideaulakes.ca.

Please see questions received and responses noted below.

1. Is the Town looking for a 9'6" V plow or a 10'6" V plow as the specifications calls for 10' long moldboard put the part number 44495-1 comes up as a 9'6" V plow blade?

A: Township requires a 9'6" V plow, part number 44495-1. Specification is an error for 10' long moldboard.

2. I am writing to inquire about the plow and sander unit. With all the push to buy Canadian and support local in the news today, would the Township consider Canadian made Plow and Sander as an option? Please find attached Arctic Snowplow Catalogue and Spreadtek Salt Spreader brochures for your review.

A: Township will accept Arctic for both spreader (galvanized) and plow (Flared V F108).
